1100 COMMERCE STREET  
DALLAS, TEXAS 75242-0216

February 19, 2009

Reply to  
Attention of:

Office of Counsel

SUBJECT: Freedom of Information Act Request/Appeal, Southern Border Fence, Texas/Mexico Border

Ms. Denise Gilman, Clinical Professor  
The University of Texas  
School of Law  
727 E. Dean Keeton Street  
Austin, TX 78705-3299

Dear Professor Gilman:

This response replies to the real estate, plat and property owner information portion of Item 2 of your amended Freedom of Information Act (FOIA) request dated May 12, 2008, addressed to the Fort Worth District. To summarize the actions related to your amended FOIA request: You had initially received a no records response from the Fort Worth District dated June 25, 2008. In that same response, you were also given contact information for the Department of Homeland Security FOIA Office. On August 13, 2008, you timely submitted your FOIA appeal to the Fort Worth District. The Fort Worth District forwarded your appeal to our Headquarters office in Washington, DC, on August 29, 2008. By memorandum dated November 25, 2008, the Headquarters office returned your appeal to the Fort Worth District for further processing regarding Item 2 of your amended request. The Fort Worth District by letter dated January 29, 2009, forwarded documents to you related to Items 1 and 3 of your amended request. As indicated in the January letter, the records for Item 3 related to awarded task orders did not exist at the time of your amended request. The records were being provided even though under the provisions of the FOIA, the Fort Worth District was not obligated to provide these records. As further explained in the January 2009 response, maps that would be responsive to Item 2 of your amended request were forwarded to the Department of Homeland Security for response. For Item 4 of your amended request, there are no records as indicated in the Fort Worth District response to you dated June 25, 2008. Additionally, as explained in the Fort Worth District June 25, 2008 response, any records that may exist for Item 5 would be located at the Department of Homeland Security.

After you have made your review of the determination which follows and the enclosed records, if you believe an appeal is still necessary, you may file it per the instructions contained in the last paragraph of this letter.

The policy of the Department of the Army is to release the maximum amount of information under the FOIA unless the information is exempt from release and a significant reason exists for non-disclosure. I have reviewed the documents which the Fort Worth District forwarded along with your FOIA requests and have determined to withhold a portion of these documents pursuant to Exemption 6 of the FOIA, 5 United States Code, Section 552(b)(6) and the Privacy Act, 5 United States Code, Section 552(a). Redacted copies of the documents are enclosed.

Exemption 6 provides for the exemption of "personnel and medical files and similar files, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy." Exemption 6 is applied broadly to "information, which applies to a particular individual." The Supreme Court issued a 1989 decision that contains 5 principles to apply when determining the release of records under Exemptions 6 and 7(c). United States Department of Justice v. Reporters Committee for Freedom of the Press, 109 S.Ct. 1468 (1989). These five (5) are:

1. substantial privacy interests can exist even though the information has been made available to the general public at some other place and time,
2. the identity of a requester under FOIA cannot be used in the determination to make a release,
3. whether any public interest will be served by the release and not the purpose of the request,
4. a narrower scope of public interest limited to the true intention of FOIA which is to allow the public to see how the Government conducts its business,
5. a determination that there are certain types of information that is always protectible without regard to individual circumstances.

Per the Reporters Committee decision, the analysis for release must consider the document and its relationship to the purpose of the FOIA. My review of the documents brings me to the conclusion that releasing this information related to individual property owners has no bearing on how the Government conducts business. The following language from Reporters Committee, 109 S.Ct. at 1485, is particularly persuasive in my determination that this information should not be released:

The privacy interest in maintaining the practical obscurity of rap-sheet information will always be high. When the subject of such a rap sheet is a private citizen and when the information is in the Government's control as a compilation, rather than as a record of "what the Government is up to," the privacy interest protected by Exemption 7(c) is in fact at its apex while the FOIA-based public interest in disclosure is at its nadir.

...

Accordingly, we hold as a categorical matter that a third party's request for law enforcement records or information about a private citizen can reasonably be expected to invade that citizen's privacy, and that when the request seeks no "official information" about a Government agency, but merely records that the Government happens to be storing, the invasion of privacy is "unwarranted."

Even though the above quotes references Exemption 7(c) records specifically, the principle has been applied by the courts to both Exemptions 6 and 7(c).

Applying this court ruling and the provisions of Exemption 6 of the FOIA, I find that no public interest as to the agency's performance would be gained by the release of the identity of the property owners, real estate, or plat information. Making such a release would constitute a clearly unwarranted invasion of the privacy rights of those citizens.

I trust that you will appreciate the consideration upon which this determination is based. However, because a portion of your request has been denied, you are advised of your right to appeal this determination through this office and we will forward it to our Washington Office for processing to the Secretary of the Army (Attn: General Counsel). An appeal must be received within 30 days of the date of this letter. The envelope containing the appeal should bear the notation, "Freedom of Information Act Appeal," and should be mailed to: U.S. Army Corps of Engineers, Southwestern Division, Attn: CECC-SWD, 1100 Commerce Street, Room 824, Dallas, Texas 75242.

Sincerely,

Eugene Kastanek  
Assistant Division Counsel

Enclosure
