THIRD WORLD WOMEN'S PROJECT

What we have learned from our dialogues with women:

☐ Women are responsible for 40% of the world's food production, yet women constitute 3/4 of the world's malnourished.

☐ Women perform 2/3 of all work hours; yet women receive 1/10 of the world's income.

☐ In Brazil, 100,000 union women marched with their babies to free the imprisoned union leaders. Soldiers refused to fire.

☐ In South Korea, women factory workers successfully organized Sunday school children to boycott candy to protest working 360 days a year, 18 hours a day.

Dialogue with Women from Latin America, Asia, and Africa

The Third World Women's Project sponsors Third World women to come to the United States to meet with you.

These women come from many walks of life—religious leaders, human rights activists, professionals, workers, etc.

return to my country . . . supported by your solidarity and your understanding. Now, in Brazil, I shall convey to others the message that there are those in the US who do care, who suffer and who are also searching for justice side by side with our own people.
