Dear Mr. Tigar:

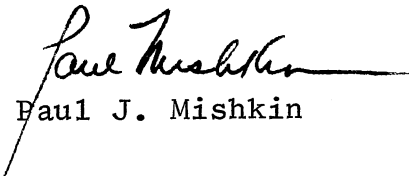

Thank you very much for informing me so promptly of your decision.

Personally---and not as a fractional part of the committee (though Tony might well agree)--- I might say that I think that getting practice experience in at this point was the right decision from your point of view.

I shall send your regards along to Tony. Your visit made an interesting day for us too, and we share your hope that we may renew the conversation in the future.

Best of luck on the new job!

Cordially,

Paul J. Mishkin
