

Dear Professor Tigar,

I'd like to thank you for your generosity in providing the Orlando Letelier and Ronni Karpen Moffitt Endowed Presidential Scholarship in Law. As a grateful recipient, I am honored to join the many others fighting for human rights. My experience working for The Center for Gender and Refugee Studies in San Francisco this past summer was incredible. Not only did I improve my legal skills, but I also learned from esteemed activists in the field and had the opportunity to contribute to projects aimed at reforming current U.S. asylum laws + practices. Given the activity at the border, I could not have chosen a better time to be in the company of veterans of championing immigrants' rights. Your support allowed me to explore a career path of interest while benefiting others. The chance to be in a city as exciting as San Francisco was an amazing opportunity that would not have been possible without your generosity.

Best,  
Colleen Mulholland
